DIRECTORY LISTINGS

F.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS

- F.1.1 The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying subscriber's telephone numbers and as an aid to the use of telephone service.
- F.1.2 The Telephone Company will furnish to its subscribers, without charge, only such directories as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.
- F.1.3 The Telephone Company shall have the right to make a charge for subsequent directories issued in replacement of directories destroyed, deface, or mutilated while in the possession of the subscriber.
- F.1.4 The listing of subscribers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. In accepting listings as requested by the subscribers of prospective subscribers the Company will not be a party to controversies between subscribers as a result of the publication of such listings in its directories.
- F.1.5 Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its judgement such listings would tend to delay or impede the use of the service.

- F.1.6 The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its judgement the clearness of the listing and the identification of the subscriber is not impaired thereby.**
- F.1.7 Except as hereinafter provided only one listing is furnished without charge for each main service, joint user service, PBX system or Centrex system; where a number of main services are provided on a rotary basis they are considered as one service. If additional listings are required to properly identify the subscriber, such additional listings may be provided without charge to the extent that the number or listing allowed does not exceed the number of main station line or PBX trunks associated with that service. Directory listings showing the appropriate station number may be furnished, indented under the main listing or additional listings at the charge for additional listings. Such listings may be specific department, location or titles of key personnel.**
- F.1.8 Additional listings on rotary numbers usually bear the call number of the first line of rotary group but, at the subscriber's request, they may bear any one of the rotary numbers.**

F.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS
(CONTINUED)

- F.1.9 Street numbers, followed by the names of streets, will be used in identifying the location of the subscriber except when in judgement of the Company names of buildings, apartment houses or communities serve as a better means of identification. Corner addresses are undesirable and will be used only where the street number is not available. The use of floor, or suite numbers of buildings or apartment houses, or other such designation is not permitted.
- F.1.10 Listings are not provided in connection with public telephone service except when the lines will facilitate the operations of the Company. No additional listings are permitted. Listings in connection with semipublic telephone service are furnished under the rates and regulations as other business service.
- F.1.11 When in judgement of the Company the use of reference or other listings in excess of the number of listings permitted without extra charge as previously outlined, are needed for better identification of the subscriber or governmental offices to facilitate the Company operations, such listings may be provided without charge.

DIRECTORY LISTINGS

F.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS
(CONTINUED)

F.1.12 Whenever any question arises to the right of a subscriber (1) to list the name of a business which he claims he is authorized to represent; or (2) to use a listing which includes the trade name of another, the Company is privileged to require the subscriber to secure from the owner of such name, written authority to use it, addressed to the Company for the acceptance for insertion or for the continuance of such listings; and is privileged to refuse to accept or delete such lists where (1) such written authority is not furnished or (2) such authority is withdrawn by such owner in writing to the Company.

F.1.13 Primary Listings

1. One listing without charge, termed the primary listing, is provided as follows:
 - a. For each separate subscriber service. When two or more main station lines or PBX trunk lines are consecutively operated, the first number of the group is considered the primary listing.
 - b. For each semi-public service.
 - c. For each joint user.
 - d. For each service station subscriber.

F.1.14 Unlisted number service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained by directory assistance operator.

PAYSTATION SERVICE

G.1 PAYSTATION SERVICE

G.1.1 GENERAL

Paystation Service provides telephone service to a customer-leased or owned paystation with or without coin collecting devices. A Paystation Access Line permits providers of such service to provide pay telephone service to the public.

G.1.2 DEFINITIONS

Coin Supervision - Provides signaling capability from the central office for paystations that do not have signaling capability within the telephone. This signaling capability provides operators and/or operator systems coin control.

Customer - For the purposes of this tariff, the customer is the Paystation Service Provider.

Network Interface Device - A company-provided jack or its equivalent. It is the point of connection between the Company owned wiring and wiring owned by the customer. For the purposes of this tariff, the network interface device will be installed at a location mutually agreed upon by the customer and the Company.

Originating Line Screening (OLS) - Enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned paystations, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available.

Paystation Access Line - A basic coin transmission dial tone line. It is a line side connection from the local exchange switch to the point of demarcation at the customer premises.

Selective Class of Call Screening - Enables the customer to restrict outgoing operator-handled calls, placed over the Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card. Selective Class of Call Screening will be provided at the customer's option, where such facilities are available.

G.1.3 RULES AND REGULATIONS

1. Paystation Service will be considered a business service for the purpose of applying the terms, rates and conditions found elsewhere in this tariff.
2. Only one paystation instrument may be connected to each Paystation Access Line. Off-Premise Extensions are not permitted.

3. The customer shall be responsible for the installation, operation and maintenance of any paystation instrument used in connection with this service.
4. Requests to Directory Assistance Service originated from paystations will be charged the applicable rate of the Directory Assistance Service Provider.
5. Directory listings may be provided under the regulations that govern the furnishing of listings for business customers.
6. Coin-free operator and emergency 911 access must be available from all paystations.
7. One directory will be distributed to the customer without charge for each paystation business exchange line.
8. The customer is responsible for the provision of booths, shelves, directories and all other ancillary equipment.
9. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls. The Company shall not be liable for shortages of coins collected and deposited at the customer's paystation instrument.
10. The Company reserves the right to disconnect service when the customer does not comply with the F.C.C. and state rules and regulations related to paystation service and equipment.
11. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all paystation access lines.

H1.1 Rules and Regulations

- A. DID service permits call incoming to a P.B.X. Line from the network to reach a specific station line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate Company intra and interexchange rates.
- B. Rates are in addition the rates show elsewhere in this and other Company tariffs for the services and equipment with which this offering is associated.
- C. The service includes central office switching equipment necessary for in-dialing from the network directly to station lines associated with customer premises switching equipment.
- D. The service must be provided on all trunks in a group arranged for inward service. Each trunk group shall be considered a separate service. Grouping Service will not be provided between separate trunk groups.
- E. Facilities and operational characteristics of interface signals between the Company-provided connection arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.
- F. One primary directory listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified in section F of this tariff.

FOREIGN EXCHANGE (FX) SERVICES

I.1 DEFINITION

1. Foreign exchange service is exchange service furnished to a customer from an exchange other than the one from which he would normally be served.

I.2 REGULATIONS

1. Foreign exchange service is not in accord with the general plan of furnishing telephone service and such service if furnished only under special conditions where warranted by the circumstances involved and provided facilities are available.
2. The service is furnished in connection with individual line main station or private branch exchange service only.
3. The service is furnished subject to the same conditions and restrictions as to the use of the service by others than the customer and his representatives as applies in connection with other class of main station service.
4. All negotiations for the establishment of foreign exchange service will be initiated by the prospective customer with the exchange from which he would normally receive service, and the customer will be required to contract for local service in this exchange.

I.3 CONDITIONS

1. When the service involves exchange areas not served by this Company, its establishment will depend on the ability and willingness of the other Company to provide and maintain the required lines and apparatus that fall within its public service

N.1

REGULATIONS

Customer-provided communications systems may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases the customer-provided communications systems will be constructed, maintained and operated as to work with the facilities of the Company, and to meet all published standards of the Federal communications Commission (FCC).

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except upon the consent of the Company.

Where telecommunications service is available under this tariff for use in connection with customer-provided communications systems, the operating characteristics of such equipment, wiring or system shall be such as not to interfere with any of the service offered by the Company. Such use is subject to the further provision that the customer-provided equipment, wiring or system does not endanger the safety of Company employees of the public; damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's service. Upon notice from the Company that the customer-provided equipment, wiring or system is causing or is likely to cause such hazard to interference, the customer shall make such change as shall be necessary to remove or prevent such interference.

REGULATIONS (CONTINUED)

Where any customer-provided equipment, wiring or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment, wiring or system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such has ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in termination of the customer's service.

Customer-provided systems which serve a location which the Company considers impracticable to serve because of hazard of inaccessibility may be connected with Telecommunications service by means of connecting equipment furnished by the Company.

The customer indemnifies and saves the Company harmless against claims for infringement of patents rising from combining such equipment, wiring or system with, or using it in connection with, facilities of the Company; and against all other claims arising out of any act or omissions of the customer in connection with facilities provided by the Company.

N.1 REGULATIONS (CONTINUED)

No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, except as provided in this Tariff. In case unauthorized attachments or connections are made, the Company shall have the right to remove or disconnect the same; or to suspend the service during the continuance of said attachments or connections; or to terminate service.

N.2 NETWORK PROTECTION CRITERIA

To protect the telecommunications network and the services furnished to the general public by the Company from harmful effects, the signal from the customer-provided communications system to the long distance message telecommunications network must comply with the following minimum network protection criteria;

N.2.1 Where the customer-provided communications systems is connected, the customer-provided communication systems must comply with the following criteria:

- a. To prevent excessive noise and crosstalk in the network it is necessary that the power of the signal at the central office not exceed 12 db below one milliwatt when averaged over any three second interval. To permit each customer, independent of distance from the central office, to supply signal power which approximates the 12 db below one milliwatt at the central office, the power of the signal which may be applied by the customer-provided equipment located on the customer's premises will be specified for each customer's location, but in no case shall it exceed one milliwatt.
